

2in1 Silicone phone and watch cable

DESCRIPTION:

Simplify your charging with this smart combined charging cable for both your iPhone and Apple Watch! Made from durable nylon, this cable is both robust and stylish. Featuring a magnetic charging pad for your Apple Watch and a connector for your iPhone, it ensures that your watch stays securely in place during charging. With an impressive maximum output of 60W, the cable supports fast PD charging, allowing you to charge both devices smoothly and quickly at the same time. The charging output for Apple watch is 3W. Make your charging easier, more efficient, and enhance your daily routine with this combined charging cable.
