

6in1 Lanyard Cable

DESCRIPTION:

A smart and versatile 6in1 charging cable that can be used in various ways. With full-color digital printing, the cable can be colored and imprinted in any chosen shade on both the inside and the outside, allowing you to customize the design according to your preferences. Additionally, it is possible to apply printing to the plastic cap for added personalization tailored to your company. The charging cable also features a practical carabiner hook, allowing you to attach items such as name tags, event badges, or even your business card. Whether attending a trade show or traveling, you'll always have your charging cable conveniently around your neck. This cable can transfer data. USB & TypeC. Micro, Lightning & TypeC
