

Charging cable “LadeMeisterUltraCompact60”

DESCRIPTION:

This 4-in-1 charging cable combines sleek design with practical functionality. It delivers an output of over 60W and features built-in magnets within the connectors, ensuring they stay together and the cable folds neatly. This prevents tangling and saves space. The cable includes connectors for USB-A, Lightning, and two Type-C ports. Made from durable nylon with connectors crafted from a zinc alloy blend, this charging cable is both robust and long-lasting.
