

## DESCRIPTION:

This thermos mug functions equally well as a thermos for keeping beverages hot or for cooling cold drinks. The thermos is made from 25% recycled stainless steel, featuring double walls to maintain the ideal temperature of your drink. The interior is coated with a ceramic lining. The lid is a multi-lock design, making it easy to drink from and compatible with the included straw. The lid is engineered to keep the thermos securely sealed, preventing any risk of spills. It has a capacity of 400ml and keeps hot beverages at the right temperature for up to 8 hours, while cold drinks stay chilled for up to 12 hours.
