

# DAB+ Hand Crank Radio

## DESCRIPTION:

A DAB+ and FM emergency radio designed for unexpected situations. The radio has a robust construction with a foldable antenna, yet remains compact enough to easily fit in your backpack. It receives both FM and DAB+ radio and can also be connected via Bluetooth. Equipped with a built-in LED flashlight, reading lamp, 5000 mAh power bank, SOS alarm, and a manual alarm clock. When it comes to power supply, you have four charging options: By hand crank, Via solar panel, With AAA batteries, or Through a USB port. During power outages, the easiest way to recharge is by using the crank handle or inserting spare batteries for a quick boost. The radio features a USB-A output and a USB-C port for charging your mobile phone or other electronic devices. In an emergency, you can activate the built-in SOS alarm, which emits a loud siren while the flashlight flashes brightly. You can also set a wake-up alarm or other reminder alerts as needed. This emergency radio is ideal to bring along — especially in areas where FM signals are unavailable and only DAB+ is supported. A complete and reliable emergency radio, ready for any unexpected situation. *(AAA batteries not included.)*
