

Electro Fire

DESCRIPTION:

The electric igniter powered by rechargeable lithium battery. A smart and environmentally friendly alternative. Light the barbeque and candles without worrying about gas or other fuels. The igniter works by forming a powerful hot electric beam between two ceramic electrodes. The flexible arm makes it easy to light even in hard-to-reach places, eg. in the lantern. The lighter is safe to use and is also equipped with child restraint. Can be recharged over and over again using the included USB charging cable. Delivered in a nice gift box. EU Design protected EUIPO.

SPECIFICATION:

Art No.	13599	Order from:	50 pcs
Tariff/stat no:	9613800000	Color:	Black
Print Surface:	10x50mm	Logo:	Screen
