

# GenerationRefill ProAntibak XXL

## DESCRIPTION:

Stainless steel water bottle designed with a double-wall construction to maintain the temperature of cold or hot beverages. Vacuum insulated to prevent the ingress of both heat and cold into the bottle. The interior of the lid is equipped with a copper insulation layer to prevent leakage of the drink inside the bottle. The exterior features an antibacterial coating with silver ions, effectively eliminating bacteria on the surface during use. The water bottle is dishwasher-safe for easy cleaning and leak-proof. The stainless steel used is sourced from recycled steel. The water bottle has a capacity of 1000ml. The product is 32% Recycled Stainless steel.

## SPECIFICATION:

Art No.	345-AB.001	Order from:	50pcs
