

# Thermometer Grill folder

## DESCRIPTION:

Clever barbecue tips collected in a printed booklet with your own printed greeting on the front! Or design the front completely according to your wishes. Perfect summer gift together with one of our smart grill thermometers: Thermometer BBQ PRO Wireless or Thermometer To Grill Bluetooth, see links below.

These smart grill thermometers will help you achieve perfection without having to monitor the grill! Set the final temperature in the app and let the thermometer do the rest. When the meat or fish is ready, you will receive a message via the app where you will also receive updates during cooking.

The folder is not sold separately, only with our thermometers. [Thermometer BBQ PRO Wireless](#)
