Lanyard Exclusive 60W Cable

DESCRIPTION:

The Lanyard Exclusive 60W Cable is more than just a short charging cable. It is a smart and stylish accessory that combines strong logo exposure with practical everyday function.
With its textile finish, the cable works as an exclusive logo strap while also functioning as a powerful USB-C to USB-C charging cable with 60W output. This makes it perfect for fast PD charging of both the Tornado Max Speaker and your mobile phone.
The compact 15 cm length makes it easy to carry, store in a bag, or use as a convenient charging accessory on the go. The full strap surface can be printed in full colour, giving your brand a large and highly visible exposure area on a product that is actually used.
The Lanyard Exclusive 60W Cable can be purchased separately or as a smart add-on accessory for the Tornado Max Speaker. A perfect way to strengthen the overall product experience, increase logo visibility, and give the user a practical charging cable at the same time.
