LifeTag Dual Bicycle Bell

DESCRIPTION:

Our smart bell does more than just make noise! Our bell comes equipped with a built-in LifeTag tracker, allowing you to easily track your bicycle. If your bike is stolen or if you forget where you parked, this feature enables you to locate it in no time. LifeTag is designed to integrate with Apple's global Find network, ensuring you always know the whereabouts of your bike. This product is integrated into Apple's Find app, and no additional app needs to be downloaded for it to function. This bell is perfect for all cycling enthusiasts, providing peace of mind while you're out on the roads. In addition to its smart tracking capabilities, it also functions as a traditional bell, making it an essential accessory for every bicycle. With an IPX67 rating, this bell is waterproof and can withstand all weather conditions. Furthermore, the battery is easy to replace, ensuring long-lasting use. Take control of your bicycle and experience the security of our innovative bell! Read about the LifeTag Dual
