

Own Design Qi 15W Powerbank 5000mAh

DESCRIPTION:

Why look like everyone else when you can create something entirely your own? With our power bank featuring **5000mAh capacity and 15W magnetic wireless charging**, there are virtually no limits to what you can create. Put your brand, product or creativity center stage.

It combines smart technology with endless design possibilities. Choose your own colors, patterns, textures, laser engraving, embossing or debossing – the possibilities are almost endless.

The powerful magnetic attachment keeps the power bank securely in place while charging, making it the perfect companion for everyday use. It is compatible with iPhone 12 and later and comes complete with a magnetic ring for Android phones and other devices without a built-in magnetic attachment.

The result is a power bank that not only charges your phone, but also strengthens your brand every time it is used.

Go your own way. Create your own design. Stand out from the crowd.

Premium down to the smallest detail.

All designs are individually priced.
