

# Own design USB Hub

## DESCRIPTION:

Why be like everyone else? Create your own USB hub. Why settle for standard solutions when you can design a USB hub entirely your own? With our custom-made hub, your brand takes center stage – on the desk, in the meeting room or on the go. Only your imagination sets the limits.

The hub combines smart functionality with unique design, becoming more than just an accessory – it becomes part of your brand. Featuring up to 100W power output, HDMI connectivity and USB 3.0 ports, it delivers both performance and flexibility for everyday work. You decide the shape, size, color and artwork of the design area. Choose a clean logo, a product illustration or a creative concept that makes the hub both practical and visually striking.

**All designs are individually priced!** Please contact us for the price on the specific design you require.

## SPECIFICATION:

|                 |               |             |                                    |
