

PD 35W Fast Charging Wall adapter

DESCRIPTION:

A PD adapter with an output exceeding 35W. USB-C PD charging is a GaN rapid charging feature that efficiently charges your iPad or smartphone. In just 30 minutes, you can charge your mobile device to over 50% when connected with a USB-C to Type C or Lightning cable. The adapter's dual outlets enable simultaneous charging of two phones. In addition to its exceptional speed, the adapter is conveniently sized for on-the-go use. The plug is TUV/GS certified, ensuring compliance with the industry's strictest safety standards. A secure product approved for use throughout the EU.
