

PD Wall adapter Complete

DESCRIPTION:

A complete PD wall adapter that has everything you need. This smart solution features a central socket for standard plugs, along with three USB ports and one Type C port built into the product. With PD and multiple outlets, you can charge all your devices simultaneously. The central part of the adapter is designed to conveniently wrap your charging cable around it when not in use. The adapter is not only a fast charger but also TUV GS approved, ensuring the highest level of safety. PD stands for Power Delivery (fast charging).
