Qi 5W Solar Flashlight Powerbank 20.000mAh

DESCRIPTION:

A powerful and durable powerbank you can trust in all situations, with solar panels and wireless QI charging. The product's waterproof, dustproof and shockproof shell with the large built-in flashlight makes it perfect for outdoor life and physical activities and work. For emergencies you can turn on an alarm function which shows as a red and blue flashing light. The 20.000mAh large battery is sufficient for several charges and furthermore the solar panels extend the period before the powerbank needs to be recharged. All our chargers have protection against overcharging, discharging, short-circuiting and overvoltage, which protects both the charger and the device being charged
