

Qi 5W Solar Foldable Powerbank 10.000mAh

DESCRIPTION:

The powerbank with three solar panels is a convenient and environmentally friendly solution for keeping your devices charged. By harnessing the power of the sun, you can easily keep the powerbank charged using its solar cells. With a battery capacity of 10,000 mAh, it can charge most phones multiple times. You can charge your phone wirelessly using the built-in Qi charging or through a cable. Additionally, the powerbank can be detached from the casing, allowing for separate usage when needed.

SPECIFICATION:

Art No.	17284	Order from:	50pcs
