

Qi Super Slim PD Powerbank 5000mAh

DESCRIPTION:

The market's thinnest, ultra-slim, and compact powerbank with built-in Qi (wireless charging). Additionally, it features a Type-C port for charging two devices simultaneously. Its very thin and slim design makes it perfect to carry with you. The powerbank has a battery capacity of 5000mAh, allowing you to charge your phone more than once on a single charge. The powerbank automatically shuts off if not used within thirty seconds, preventing unnecessary battery drain. Compatible with iPhone 12 and newer models. PD20W / Wireless 15W.
