R-ABS LED Built-in cables PD Powerbank 10.000mAh

DESCRIPTION:

A powerbank that ensures you always have your charging cable with you on even on the go. The built-in cables in the powerbank guarantee that you can charge your mobile phone at any time. Equipped with a Lightning cable, a Type C cable, and a USB cable, you always have the means to charge the device that needs it. With a built-in 10,000mAh battery, you can go without a wall outlet during your travels. The LED-lit logo effortlessly promotes your company or brand. The R-ABS material used in the powerbank is also GRS certified, providing complete traceability back to the manufacturer.
