

RFID Magnetic Card holder Stand

DESCRIPTION:

A modern magnetic card holder with built-in RFID protection to keep your cards safe from skimming. Clean PU design combined with a smart grip and flexible stand makes it as stylish as it is practical. The grip is perfect when you're lying on the couch reading or scrolling, while the stand makes your phone comfortable to use on a desk – whether you're working, having coffee or watching videos. The card holder is MagSafe-compatible and attaches securely to iPhone 12 and later. With the included magnetic ring, it also works with phones without MagSafe, such as Samsung and other Android devices. Holds up to three cards.

A smart everyday solution focused on security, design and ease of use.
