

# RFID Magnetic Card holder

## DESCRIPTION:

A clean and slim card holder with built-in RFID protection, made for those who appreciate simplicity. Thin profile, sleek look and space for up to three cards – nothing more, nothing less. It's MagSafe-compatible and snaps securely onto iPhone 12 and later. With the included magnetic ring, it also works perfectly on phones without MagSafe, such as Samsung and other Android models. Discreet, practical and easy to use – a card holder that just works, every day.
