

# RFID Magnetic Wallet

## DESCRIPTION:

A smart mobile wallet with built-in RFID protection for those who want to keep essentials in one place. Space for two cards and a driver's license, plus room for some cash – ideal when you want to travel light.

The stand function makes it perfect when you're having coffee, eating lunch or streaming hands-free. The wallet is MagSafe-compatible and attaches securely to iPhone 12 and later. With the included magnetic ring, it also works on phones without MagSafe, such as Samsung and other Android devices.

A simple all-in-one solution that makes your phone even smarter.
