

RFID protection card

DESCRIPTION:

Beware of the latest trend to access your bank details. This smart and very affordable RFID card blocks RFID and NFC signals. The card protects your bank and credit cards against wireless skimming. With the built-in chip that emits a 13.56Mhz signal that blocks skimming to avoid unwanted access and copying of data from, for example, credit cards, access cards and bus cards. The card is designed like a regular credit card and fits all wallets, mobile phone cases, etc. The card does not affect mobile phones, magnetic strips or chips on other cards.
