

# Privat: Solar Hand crank Radio PRO

## BESKRIVNING:

The best and most advanced emergency radio for unexpected situations. The radio has a robust design with folding antenna and is small enough to easily fit in your backpack. The emergency radio can receive FM and AM radio, has a built-in LED lamp (flashlight). Built-in reading lamp also built-in power bank of 2000mAh. The radio is also equipped with an overflow alarm, as well as three built-in cables on its underside to facilitate the use of the built-in power bank. As for the radio's battery power, you have four choices: charge it via cranking, via solar cells, with AAA batteries or via USB socket. In the event of a power cut, it is best to use the crank or the extra batteries if you want to get the battery power up relatively quickly. Charge with the crank / dynamo for about 10 minutes, which gives just over an hour of use. The radio has a USB output and a TYPE C output that is used for charging the radio. The three built-in cables USB A, TYPE C, Micro USB are used for charging other electronic gadgets such as your phone or other devices. Should an emergency situation arise, you can easily use the assault alarm that is built into the product. A strong and loud sound sounds while a red light flashes. A complete emergency radio simply! Under 50pcs without logo request price. (AAA batteries not included) Smaller model: [Solar Hand crank Radio small](#)
