

Solar Powerbank 10.000mAh

DESCRIPTION:

A reliable powerbank with a powerful battery and a durable casing. The 10.000mAh battery can charge most devices multiple times, and the solar panel furthers the duration you can go without needing a power outlet. The casing is water-, dust- and shock proof which makes it a perfect powerbank for the outdoors and physical activities as well as at work. The Solar Powerbank 10.000mAh also consist of a compass, flashlight and carbine hook. The standard colors for this product are black/orange and black/black. Other colors may be available upon request. [QI Solar Powerbank 20.000mAh](#) [Solar Foldable Powerbank 10.000mAh](#)
